## Features

**Caps to print on**

This selection of caps is very well suited for printing. The construction of the caps leaves plenty of space thus facilitating decoration and presenting the logo to perfection.

**3 Panel**

Division of cap into 3 segments. Advantage: A large advertising space without annoying seams on front- and side-panels

**UV Protection**

Textiles with the symbol UV-protection are characterized by sun protection comparable to the protection of a sun-screen. The information is given in UPF (UV-protection factor). This indication implies the factor by which the period of time spent in the sun can be extended without getting sunburnt. It is calculated in the same way as the sun protection factor of a sun-screen.
